- Keep your hands inside the flume. (Tube Slide)
- Leave the plunge area immediately.
- You must be 42" tall to ride the water slide.
- WARNING: Water depth is 3 feet 6 inches.

Swim Diaper Policy

The TAG Center often anticipates to be very busy and in order to help reduce the number of pool closures due to contaminations; the TAG Center staff will be strongly enforcing the pool policies along with the swim diaper requirements. All children not toilet trained are required at all times to wear the following while in the pool area: a disposable Swim Diaper, Plastic Pants to cover the diaper, and a Swim Suit.

If you or your children are sick, have diarrhea, or have an open cut/wound, DO NOT enter the water for the safety of other swimmers. In the event of fecal "accident", it is required by the State of Wisconsin that the pool be shut down for a substantial period of time so that the pool can be properly sanitized to a satisfactory level. State regulations require a twenty-four hour closure when a liquid fecal contamination occurs.

Parents please talk to you non-diapered children about the importance of taking frequent bathroom breaks. All adults will be responsible for the actions of their children. If you feel your child may have an "accident" we advise you to follow the swim diaper requirement. Any failure to be in compliance with the TAG Center Swim Diaper policy, which results in the closure of the TAG Center Aquatics Center due to a fecal accident, will result in a \$250 fine per incident. Swim diapers and the plastic pants can be purchased at the TAG Center front desk.
